WEEKLY REPUBLICAN—1897.
DAILY PUBLIC LEDGER—1899.

MAYSVILLE, KY., SATURDAY, OCTOBER 13, 1906.

ONE COPY—ONE CENT.

ALL HER FAULT.

Oh, fie upon you, little man!
How weak, though it is human,
To seem contented if you can
Just blame things on a woman!
The crime, the loss, the fall from grace,
The dastard deed and revel—
Without a blush upon your face
You make her out the devil.

Beginning in lost Eden land,
When Eve endured "poor" Adam,
It's been the same on every strand:
"Just blame it on the madam."
A hero otherwise in life,
In all respects judicious,
When ill luck meets you in the strife,
"That woman was so vicious."

When Priam lost his glory-deed,
And Troy, a ruin, fell in,
At once in pamphlet and in creed
They blamed it all on Helen.
When Antony mislaid his nerve
And turned in cruel hate raw,
Of course the world began to serve
The blame on Cleopatra.

And down the ages till today,
In lives of King and plowhead,
The weakest and the strongest try
Reveal this touch of coward—
What time the tragic moments rise,
And torn and tossed and hurried
He shoots—the world at once outcries:
"It was the girl he married!"

GOT UGLY FALL

Traveling Man Took a Tumble in East Third Street

Thursday night a traveling man, on his way from the L. and N. Depot to his hotel, fell into the excavation made for the street improvement at the corner of Lee and Third streets and was considerably bruised and battered from the fall.

The gentleman was very much incensed at the negligence of some one for not having a warning signal at the dangerous spot, and threatened to bring suit against the city.

He said,—and rightfully so,—that strangers visiting the city are not familiar with these stopoffs and ditches and are liable to receive a broken limb or neck.

It was some time before he cooled down.

VOTE THE BONDS!

Surely You Want Maysville to Have Good Schoolhouses

At the November election the city will vote on the proposition to issue \$60,000 in bonds to build two new schoolhouses, one a High School Building the other a First District Building.

This matter does not seem to be receiving any attention from the voters and taxpayers and the people seem as indifferent towards it as they are as to who constitutes the members of the Board of Education, when in truth both matters are equally important, for the Board of Education will select the site, plan the new buildings and pay out the money.

As these buildings will be here to stay when erected, our people should get busy and give these matters serious attention.

Good schools and modern buildings count for much now-days, but these things won't come without attention.

As is the teacher so is the school, and as is the Board so is the teacher, and as is the vote so is the Board. So let us wake up and give these matters our attention.

See Gerbrich about piano today.

If there was perfect honesty in politics, it wouldn't be necessary for a defeated aspirant for nomination to issue "cards" asking his friends to vote for the nominee.

In the drawing for positions on the ticket in the coming Democratic Primary, Governor BECKHAM's name is to be first and Senator MCCREARY's last for the Senatorial stakes. That's it; "the first shall be last"—when the votes are cast, although it may be different when they're counted.

COLONEL WILLIAM B. HALDEMAN, Editor of The Louisville Times, and Colonel of the First Regiment, now a member of the Democratic State Committee, has promised a "free election and a fair count" in Louisville. Newspapermen as a rule are as honest as their delinquent subscribers permit, and Colonel HALDEMAN may be expected to fulfill his promise, even if it be necessary to call out his crack Regiment to enforce it.

THE Kentucky Machine's greed for taxes has just received another black eye. Some time ago suit was brought by Auditor's Agent LUCAS, seeking to assess for taxation certain steamboats and barges of the Ayer & Lord Tie Company which were harbored at Paducah, and which had the word "Paducah" painted upon them. The Kentucky Courts held that the boats could be taxed at Paducah. The Supreme Court of the United States holds that the situs of taxation was in the state of Illinois, the place of residence of the members of the Company owning the boats, which were engaged in interstate commerce.

John Michaelson, a terra cotta worker, fell from the top of a fifteen-story building at Kansas City, but when fifty feet down managed to grasp a dangling rope, and thus saved himself. He climbed back to safety and was unhurt. The escape is without precedent.

Denver schoolgirls have been ordered to have pockets in their dresses. The Principal of the leading High School says that every day six or ten purses are found on the floor, showing that the girls have no safe place to keep them. "Mothers have no right to put temptation in the way of children in that way," said the Principal. "It is impossible to get 1,000 boys and girls together and not find some who will yield to primitive impulses when they see money lying around. I think the large number of purses that are returned to the office prove the honesty prevalent at the school."

Physician Says Consumption Kills
300,000 French Each Year

Deputy Meslier, the famous French physician, says there is no remedy against consumption, no matter what Koch and Behring claim.

"We Frenchmen," he continues in a stirring paper, "bury 300,000 young men and women annually to allow a few hundred industrial barons to accumulate fortunes that benefit no one, not even the accumulators. Just as long as the rich can hang on to power, just so long the minotaur of consumption will devour the poor and weak."

"Against these breeders of consumption and death there is but one remedy: Revolution. The fabric of society must be destroyed and renewed lest consumption will kill 350,000 people next year, and 400,000 the year after, etc."

"Ninety per cent. of all consumptives die of organic weakness; they must die; there is no help or medicine for them. If society wants to stamp out consumption it must stamp out poor quarters; it must raze all tenements; it must lay low 75% of the houses for rent. It's the environment that kills people nowadays—the rich and powerful brew the deadly poisons and wield the knives."

"When I was a student the favorite seat of consumption was at the top of the left lung. In consequence of the emigration of the provincial poor to the big cities, in consequence of overwork and of no work, in consequence of insufficient nourishment and too much care, in consequence, particularly, of poisonous wines and liquors, the seat of consumption has shifted in late years, and its progress is the more rapid. "It begins nowadays in the right side of the body and works like a sledge hammer to undermine the constitution of the afflicted. As the principal criminals, I accuse the industrial barons that poison families wholesale by alcohol and by unhygienic food. They do it in all countries; here the French noblemen of the North are the principal poisoners."

"A man who hasn't got money enough to buy

himself a decent meal is forced to subsist on alcohol, that kills him as surely as a dagger thrust. To regenerate France it will be necessary to make the sale of liquor a penal offense and the renting of unsanitary houses another penal offense."

SNAKES ALL BUSY

And the Thirsty Drummer Man Had
to Leave Town Dry

Elizabethtown News.

A drummer dropped into Hodgenville the other day with a thirst and found there were no saloons in town. He applied to the druggist for a drink of red liquor. The druggist asked him if he was sick, and receiving the reply that he was not, told him his only chance was to get snake-bite. The druggist said there was a den of rattlesnakes about four miles from town. The drummer went out and in about two hours came back. He looked weary and quite dusty. He had nothing to say until the druggist asked him what was the matter. He said that he had hunted up that rattlesnake den and found that the snakes all had engagements for bites six months in advance and he guessed that he would have to go dry.

Stockholders of the Norfolk and Western Railroad at the annual meeting in Roanoke, Va., authorized the issue of \$34,000,000 additional stock.

DECIDE YOURSELF.

The Opportunity Is Here, Backed By Maysville Testimony.

Don't take our word for it. Don't depend on a stranger's statement. Read Maysville indorsement. Read the statements of Maysville citizens And decide for yourself. Here is one case of it:

Mrs. Mary Thomas, wife of J. A. Thomas, of 204 Limestone street, Maysville, Ky., says:

"I am only too pleased to confirm the statement I made in the spring of 1900 recommending Doan's Kidney Pills, after they had relieved me of backache and other symptoms of kidney trouble. I got them at J. Jas. Wood & Son's Drugstore. During the years that have elapsed since I made that statement I have had occasion to give Doan's Kidney Pills a further trial and I have found that it requires only a few doses to ward off attacks of kidney trouble or to check them before they become serious. I can also point to the case of my boy, twelve years old, who at the time I first used Doan's Kidney Pills was troubled a great deal with weakness of the kidneys and could not control the secretions properly. I gave him Doan's Kidney Pills and he improved rapidly under the treatment. The relief he found has proved lasting and from his experience and mine I am certainly warranted in recommending Doan's Kidney Pills."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.
